Subject: RE: CAC house bill 398 notification

Louie,

Please convey my support to the State Legislature for House Bill 398, which would make drawing a Sheep, Goat, or Moose permit a once-in-a-lifetime opportunity. I hear people all the time who say they have applied 30+ years to get a permit, and I know there are many people who die without ever drawing one of these highly coveted and sought after permits in a lifetime of applying. It is only fair that everyone has a chance to draw one of these permits in a lifetime without some people drawing 2 or 3 of these coveted permits in their lifetime.

Thank you for your support of this bill and for notifying the State Legislature of my support for it. I would have been glad to accompany you and deliver this message myself, but I am tied up with my work at this time. If there is anything else I can do to support this bill, please let me know. I am a volunteer member of CAC in Region 2, dedicated to the sport of hunting in Montana and the sportsmen and sportswomen of Montana, but I am voicing my support for this bill on my own behalf.
